Investment Process

We identify **INFORMATION GAPS** in Discovery and Rediscovery Phase Companies.

Discovery Phase:

For companies in the early stages of their investment cycle, we look for superior growth prospects (long-term EPS growth of at least 20%).

Rediscovery Phase:

Rediscovery companies offer near-term earnings acceleration due to factors such as a change in management, an improved competitive position, a new product cycle or a cyclical upturn. We also look for companies that are takeover candidates. Rediscovery companies must provide a minimum of 40% EPS growth over the next twelve months, or sell at a 40% discount to a company's takeover price.

Philosophy

Information Gap \ in•for•ma•tion gap \ *n.*: a disconnect between stock price and fundamentals. Information gaps occur most frequently and are most attractive in small, rapidly growing companies.
